Experience

Project Manager, Operations Excellence | RingCentral | Bangalore, India **Apr 2024 – Present**

- Leveraged Generative AI and Google Apps Script to engineer a dynamic, front-end UI for the RingCentral PS Quote & Margin Calculator; automated complex financial tracking and reduced deal-desk approval cycle times by 95% (from 48 hours to 2 hours).
- Spearheaded the operational transition and platform administration of the Monday.com ecosystem; designed, built, and maintained dynamic executive dashboards to provide real-time visibility into portfolio health, resource capacity, and operational KPIs.
- Architected unified workspace structures and automated cross-platform workflows across Monday.com, Smartsheet, and Jira, streamlining delivery tracking and operational support for distributed global teams.
- Led the transition and adoption of the LAC 3.0 project governance tool, maintaining comprehensive RAID logs and applying Lean Six Sigma root cause analysis to eliminate formula errors.
- Directed User Acceptance Testing (UAT) and smoke testing for enterprise releases, ensuring adherence to delivery processes, standards, and seamless system stability.

Global Program Lead (Operations & Compliance) | DKMS Foundation **Apr 2020 – Dec 2023**

- Managed end-to-end project delivery (initiate-plan-execute-close) for a global e-registration initiative across 7 countries, successfully transitioning donor onboarding to a unified digital platform.
- Partnered with legal counsel to navigate stringent FCRA restrictions and execute a corporate restructuring (for-profit/non-profit entities) to secure global funding channels.
- Implemented GDPR-compliant data governance and Standard Operating Procedures (SOPs) for the secure management of sensitive DNA and medical data.
- Optimized material flow and kit-distribution logistics nationwide by establishing decentralized hub-and-spoke volunteer networks, improving delivery turnaround by 35% across regional hubs.
- Utilized Tableau to analyze laboratory data regarding buccal swab accuracy, tracking performance and translating insights into continuous improvement initiatives.

Associate (Process & Integration) | DKMS Foundation **Nov 2018 – Mar 2020**

- Led post-merger operational integration between India and Germany, standardizing global manufacturing-style compliance workflows to improve audit readiness.

- Overhauled inventory management systems, implementing tracking protocols that reduced process costs by 40% while increasing material traceability.

UN Peace Messenger (1-Year Global Fellowship) | Germany **Aug 2017 – Aug 2018**

- Directed cross-cultural educational programs and international stakeholder workshops across Germany, managing program governance and delivery milestones for global initiatives.

Program Executive (Operations) | SoStakes Services Pvt Ltd | Bangalore Jan 2017 – Aug 2017

- Designed operational delivery models and audited timelines for large-scale CSR projects to ensure 100% milestone adherence for corporate sponsors.
